

**101 SERIES
FIXING
METHOD**

Slates are fixed using our specially designed screws self-drilling to ensure optimal installation while remaining completely invisible to minimize design impact.

Screws are made of stainless steel with a large flat head that enables an easier and more secure fixing.

CUPACLAD® 101 *Logic*
SIMPLE AND BALANCED

CUPACLAD® **101 *Logic*** features a balanced design that highlights the unique texture and looks of the natural slate.

CUPACLAD® **101 *Logic*** system utilizes 40x20cm slates fitted horizontally with invisible fixings.
