THE IMPORTANCE OF PROVENANCE.

We are **the only slate producer** to carry out the entire manufacturing process in-house, combining traditional craftsmanship with the latest extraction techniques and maintaining **total control over quality** at every stage.

Too often, 'white label' slates of unspecified origins can spoil the aesthetic of a project due to their inconsistent performance. By contrast, all pallets of genuine CUPA PIZARRAS slate come with a Certificate of Authenticity and **barcoded traceability label** that guarantees their provenance and ensures **uniform quality and appearance**.

When you choose a CUPA PIZARRAS slate, you can be certain that the slate you receive is **exactly what you have specified**.

CUPA 8, ONE QUARRY JUST FOR YOU.

Novo Mormiau in Galicia is one of our 17 quarries and is **reserved only for large developer projects**.

We produce more than 10.000 tons per year and stock it for you alongside the other 50.000 slate pallets from all our quarries, so its always available when you need it.

QUALITY WITH NO COMPROMISES.

Our exhaustive control of the whole process enables us to offer a range of natural slates that exceed **all the international quality standards**. We are the only slate producer that keeps its brand on the pallets for a reason: we stand behind our product.

All CUPA EXCELLENCE 8 slates have been independently tested to the BS EN 12326:2014 standards, and are classified as T1, S1, W1.

50 YEARS GUARANTEE.

We offer a 50-years* guarantee for every CUPA EXCELLENCE 8 slate against any imperfections that may affect the slate roof impermeability.

**Installation under ISO EN 22190-3. Supply of slate tiles, other compensations excluded.
Check CUPAPIZARRAS.com for details.*

SALES COUNSELLING AND TECHNICAL SUPPORT.

Our **UK based sales, specification and marketing departments** are at your disposal to organise meetings or visits and support the entire development process.

Our technical support team is made up of skilled professionals who are dedicated to each of our products. It offers developers a consultancy service where all your natural slate questions will be answered.

CUPA PIZARRAS has partnered with the RIBA CPD Providers Network to create a seminar that covers everything an architect or construction professional needs to know about natural slate.
